

V-Mail Service provides the most expeditious dispatch and reduces the weight of mail to and from personnel of our Armed Forces outside the continental United States. When addressed to points where micro-film equipment is operated, a miniature photographic negative of the message will be made and sent by the most expeditious transportation available for reproduction and delivery. The original message will be destroyed after the reproduction has been delivered. Hello, Joe,

Just a few minutes till it gets dark enough to go to the movies, so I'll shoot out a V-mail. - But I know I won't get to finish it - but will take off again early tomorrow morning before I take off otherwise. — Later - two days in fact! - And you're lucky I'm here today! - Yesterday another mission and today I was trying to get on a trip to Algiers, but that fell thru. - See, - I'm a busy man, at times. - Sometimes I loaf & others I can hardly keep up with myself!

I had a pleasant surprise when I got back yesterday. Found the package with my camera & candy had arrived, - both in good condition. - It sure made good time as the postmark was the 17th of August! - Don't know what happened to the other package mail earlier than you keep yapping about. - Guess it too will be there soon, now.

Sorry I can't fix Blondie up with the parachute. She's a little too close to the ground, in the bicycle basket, and before she could react, am afraid she would be on the ground. - Even the paratroopers have to be higher than that. - Tell you what we'll do. Next time I'm home, we'll take her up and kick her out from a couple of thousand feet. - Then we'll know whether she has the sense to pull the rip cord if given time for her reactions to set in! - I can hear her (and Marion) yelping now! - Boy - your vacation sure brought forth lots of letters. - keep it up - and maybe I'll see what I can do with my nose!

V---MAIL

More later. Joe
